

MR. THANAWAT BOONYASITPICHAI

Bang Khae, Bangkok | 0825969294 | boonyasitpichai.t@gmail.com

Summary

- Total Experiences 2 years as an Artificial Intelligence Engineer in product for customer service 100 ++ users
- Tuning prompt, customized knowledge management solutions and implemented with cross-team collaboration to meet client needs and ensure smooth production deployment.
- Experience in managing and developing API and databases (Vector DB, Structured and NoSQL databases)
- Enthusiastic to gather new knowledge, interesting in Test First, Observability, SDD, Agile
- Able to solve problems and achieve goals.

Experience

WeLoveBug

Prom Phan Building, 3 Lat Phrao 3 Alley, Chom Phon, Chatuchak, Bangkok

Software Tester

11/2025-04/2026

- Planning tasks to practice for analyzing business requirements and designing comprehensive test cases and test scenarios.
- Performed execute manual test customer site and produce detailed test summaries to ensure deliverables tracking in domain insurance.

Botnoi

253 Asok Montri Rd., Klongtoey Nue, Wattana, Bangkok

AI Engineer

01/2024-11/2025

- Spearheaded the development and implementation of a Retrieval-Augmented Generation (RAG), Text2SQL and coordination between front-end and back-end development teams for enhanced knowledge management solutions for end-user.
- Actively managed customer interactions weekly, ensuring their needs and feedback were integrated into product.

AltoTech Co., Ltd.

719 Mint Tower Building, Wang Mai, Pathumwan, Bangkok

Prompt Engineer (SuperAI SS3 internship)

04/2023- 06/2023

- Develop and enhance OpenAI API to answer organization in HVAC domain knowledge (domain building engineering systems).

Skill

Core Development & Databases

Languages: Python (Strong), HTML (Basic) **Databases:** SQL, MongoDB, VectorDB, GraphDB (Neo4j) **Tools:** Git, Docker
Design: Test Cases, Test Scenarios (Basic) **UI/UX:** Figma (Basic Collaboration)

AI & LLM Orchestration

Frameworks: LangChain, LangSmith, FastAPI **Automation:** N8N, Airflow (Basic)

Education

PANYAPIWAT INSTITUTE OF MANAGEMENT

Bachelor of Engineering GPAX: 3.59

Robotics And Automation Engineering

05/2018 - 02/2022

Accomplishments

- **Full Stack Web Developer 2026 (42Bangkok) [Doing]**
- **Short Bootcamp Software Automated Tester (Gosoft)**
 - o [Web UI automate test] using robotframework seleniumlibrary. [github](#)
- **Bootcamp Pim Non degree (Panyapiwat Institue Of Management)**
 - o [Book recommendation] using content-based, (CF), and NCF techniques. [github](#)
 - o [Customer Segmentation] using airflow make pipeline to train data in Bigquery (GCP) [github](#)
- **SuperAI Engineer ss3 2023 (AIAT)**
 - o [Silver Medal] on project using openAI gpt4 to make RAG system. [Linkedin](#)
